01

Prepare for the Market

Consider Home Repairs

Buyers gravitate towards a turnkey home that's ready for them to move in. Overlooking necessary repairs and maintenance can be a major turn-off and potentially stall your sale.

Consider high level repairs and upgrades like decluttering and depersonalizing, adding a fresh coat of paint, pressure washing, or sprucing up the curb appeal.

Putting in the leg work now will not only boost the sale price of your home, it will keep the sales process moving quickly once a buyer shows interest.

Call us first to ensure the repairs you prioritize align with maximizing your home's market appeal and value when selling!

02

Strategic Marketing

Pricing Your Home

Here's something that may surprise you...

Properties that are priced right from the beginning typically sell for more in the end.

If you price your home too high, the home will stay on the market longer. The longer a home stays on the market, the less it will be shown.

A property attracts the most interest when it is first listed, so it is crucial to price it correctly initially.

It's important to thoroughly evaluate the market to determine the market value of your home.

What's the big deal about listing photos & videos?

The photos of your home directly influence whether or not a potential buyer will schedule a showing of your home or not. It is crucial that we take high quality, attractive photos and videos showcasing the best qualities and features of your home.

Because of this, we work alongside the photographers to capture your home in the very best light, at no cost to you

After each showing, we will share any feedback we receive from the potential buyers.

Under Contract

This process begins once we accept an offer on the home. Here are the major milestones to expect:

Loan Approval and Appraisal: The buyer's lender evaluates the property's value to determine if the buyer qualifies for the mortgage. An appraisal ensures the property's value matches or exceeds the agreed-upon purchase price. Depending on the contract, meeting these approvals may be contingencies of the sale.

Buyer's Due Diligence: The buyer conducts inspections, appraisals, and any other necessary investigations to ensure the property's condition and value align with their expectations.

The Closing Process

This process begins once the sold sign is up. Here are the milestones to expect:

Final Walkthrough: Just before closing, the buyer usually conducts a final walkthrough to ensure the property is in the agreed-upon condition.
